

Sammit Jain

sammit.bitspilani@gmail.com • <https://sammitjain.github.io>

16/1, 2nd Floor, West Patel Nagar, New Delhi, India - 110008

RESEARCH INTERESTS

■ Natural Language Processing • Biological Image Analysis • Computer Vision • Machine Learning

WORK EXPERIENCE

The MathWorks, Inc.

- Software Engineer 2 (Semantic Search) Feb 2020 – Present
 - Developing predictive search algorithms in C++/MATLAB
 - Working on domain-specific Named Entity Recognition(NER) and related NLP techniques to improve model-based design workflows.
- Application Support Engineer, EDG - Bangalore, IN Jun 2019 – Feb 2020
 - Worked on predictive modelling for Simulink models, and search algorithms
- Engineering Development Group (EDG) Intern - Bangalore, IN May 2018 – Jul 2018
 - Worked on Exploratory Data Analysis to improve the Block Suggestions Feature in Simulink
 - Analyzed data from 5K industry Simulink models to identify key parameters, using multivariate statistical methods.
 - Modelled predictive algorithm using MATLAB, Python and R.

Bioimage Analysis Group, Institut Pasteur

- Visiting Research Fellow - Paris, FR Feb 2019 – Jun 2019
 - Modelled key algorithm for segmentation of dendritic spines to study neuro-degenerative diseases.
 - Successfully created and deployed algorithm using minimal path geodesics and intrinsic median achieving 100% accuracy. (Accepted for ISBI 2020)

The Graduate Center, City University of New York (CUNY)

- Visiting Research Fellow - New York, NY Jul 2018 – Feb 2019
 - Developed faster subspace classification algorithms using N-tuple Weightless NNs with Prof. Robert M. Haralick.
 - Successfully developed a modularized open-source framework *fitcnt()* for deploying N-tuple Neural Network

EDUCATION

BITS Pilani , Goa, India

- M.Sc.(hons) Mathematics Aug 2014 – May 2019
- B.E.(hons) Electrical and Electronics Engineering Aug 2014 – May 2019

PROGRAMMING SKILLS

Languages/Tools: C++ • MATLAB • Python • SQLite • R

OS: Linux • MacOS • Windows

Version Control: Perforce • Github

RELEVANT COURSEWORK

Applications of Computer Science in Biology • Numerical Methods for PDEs • Computer Programming • Digital Signal Processing • Optimization • Graphs and Networks • Discrete Math • Probability and Statistics

PUBLICATIONS JOURNALS AND CONFERENCES

- [1] Sammit Jain, Suvadip Mukherjee, Lydia Danglot and Jean-Christophe Olivo-Marin “Morphological reconstruction of detached dendritic spines via geodesic path prediction” *IEEE ISBI 2020 International Symposium on Biomedical Imaging*, Oct 2019.

- [2] Fernandes, J.R.D., Jain S. and Banerjee A. "Expression of ODC1, SPD, SPM and AZIN1 in the hypothalamus, ovary and uterus during rat estrous cycle" *General and Comparative Endocrinology*, 246. . 10.1016/j.ygcen.2017.03.005. Mar 2017.

PROJECTS

Image Segmentation using Machine Learning

- Morphological segmentation of bright field and dark field microscopic images Sep 2016 – Aug 2017
 - Focus: Morphological segmentation and quantitative analysis of microscopic TIFF images using clustering algorithms.
 - Result: Successfully quantified protein expressions effectively using Image processing techniques as opposed to manually examining the images, and published findings to support the hypothesis.

Stereovision

- Obstacle Detection and Recognition using a home-made stereocamera Aug 2016 – Aug 2017
 - Focus: Construction and calibration of a stereocamera, and 3D reconstruction of scenes to help in obstacle detection.
 - Result: Successfully constructed and calibrated a 3D stereocamera capable of distinguishing obstacles of different colors and shapes.

POSITIONS OF RESPONSIBILITY

Computer Programming (CS F111) - Spring 2016, Spring 2017

- Professional Teaching Assistant, BITS Pilani-KK Birla Goa Campus Jan 2016 – May 2017
 - Responsibilities included being in charge of evaluation of lab sessions, and grading quizzes. Also assisted in tutorial sessions to clear student queries

TEDxBITSGoa, BITS Goa's official University TEDx event

- Curator, TEDxBITSGoa 2017 Apr 2016 – Apr 2017
 - Organized and curated TEDxBITSGoa, India's oldest running University TEDx event, a conference which brings together ideas and people from across the country

AWARDS & SCHOLARSHIPS

- Winner, *MathWorks Hackathon*, Bengaluru 2018
Real-time hand-gesture recognition for MATLAB/Simulink and Windows operations
- Finalist, *AU Titan Hackathon*, Chennai 2016
Stereovision project shortlisted as one of top entries.
- Winner, General Quiz at *Revels 2k15* 2015
Secured the first position in the General quiz held at MIT, Manipal.
- Winner, *HT-PACE Inquizitive 2013* 2013
Secured first position among 3000 participating teams from 500 schools in Delhi/NCR
- Fellow, *DUKE University - Talent Identification Program (TIP)* in collaboration with IIM-A 2009
Selected among the top 64 students of the country to represent India at DUKE TIP
